Phone: (702) 739-3557 [Jim Williams]

Description

NevadaNet is an initiative of the University of Nevada System with funding assistance from the National Science Foundation and the State of Nevada. NevadaNet is a state-wide network and currently serves the Desert Research Institute, the University of Nevada, Reno and the University of Nevada, Las Vegas. Connection to the NSFNet backbone is via a 56kbs line to SDSC.

NevadaNet is an IP network with current capacities from 56kbs to T-1.

Network Access

Any IP host on the Internet may access NevadaNet.

Who Can Use the Network

Any individual or organization having Internet needs in support of education and/or research may request participation in NevadaNet. Appropriate connections and use follow the guidlines or policies of the National Science Foundation, the Federal Research Interagency Coordinating Council and the Federation of American Research Networks.
